GAZELLE REMEMBER THE FUTURE

"Gazelle were THE trainer we all wore in the 90s. They have a timeless look that just doesn't date. I was and always have been an Adidas girl."
- Kate Moss

WORDS BY
SANTINA STARBUCKS

More than 30 years of its and yet it is difficult to believe when it was created by the first team. The '90s were a defining decade for the brand. From the original and iconic Gazelle to the modern-day Gazelle, the shoe has a timeless look that just doesn't date. I was and always have been an Adidas girl."

I already credit 30 years of its and yet it is difficult to believe when it was created by the first team. The '90s were a defining decade for the brand. From the original and iconic Gazelle to the modern-day Gazelle, the shoe has a timeless look that just doesn't date. I was and always have been an Adidas girl."
- Kate Moss

What has changed since then? The styling has become sleeker and more modern. The original Gazelle was a simple, functional shoe. Today, it's a fashion statement. The Gazelle is a shoe that has stood the test of time. It's a shoe that has become a classic. It's a shoe that has become a symbol of style. It's a shoe that has become a part of our lives. It's a shoe that has become a part of our history. It's a shoe that has become a part of our future.

And imagine that it was actually conceived as an actual football training shoe.
